Education

December 2015 | **Doctor of Philosophy** in Computer Science | Emphasis: Software Engineering
University of Ottawa, Ottawa, Canada
Supervisor: Prof. Timothy Lethbridge
Dissertation: "*Model-Oriented Tracing Language*: Producing Execution Traces from Tracepoints Injected into Code Generated from UML Models" [pdf]

June 2009 | **Master of Science** in Computer Science | Emphasis: Software Engineering
King Fahd University of Petroleum and Minerals, Dhahran, Saudi Arabia
Supervisor: Dr. Mahmoud Elish
Thesis: "Software Quality Assessment using Ensemble Models" [pdf]

June 2006 | **Bachelor of Science** in Computer Science
King Saud University, Riyadh, Saudi Arabia
Project supervisor: Dr. Mohsen Denguir
Graduation project: "Electronic Ordering System Using Hand-held Devices"

Research Interests

- AI for Software Engineering
- Ensemble Learning
- Software Quality
- Software Security

Work Experience

Associate Professor

Oct 2025 – Now

King Fahd University of Petroleum and Minerals, Saudi Arabia.
Information and Computer Science department
+ SWE 206 Introduction to Software Engineering
+ ICS 557 Advanced Machine Learning

Assistant Professor

Jan 2016 – Oct 2025

King Fahd University of Petroleum and Minerals, Saudi Arabia.
Information and Computer Science department

+ ICS 103 Computer Programming in C
+ SWE 206 Introduction to Software Engineering
+ SWE 311 Principles of Software Engineering
+ SWE 316 Software Design and Architecture
+ SWE 411 Software Engineering Project I
+ SWE 412 Software Engineering Project II
+ ICS 500 Research Methods and Experiment Design in Computing
+ ICS 574 Big Data Analytics
+ ICS 557 Advanced Machine Learning

Chairman

Jan 2019 — Aug 2023

King Fahd University of Petroleum and Minerals, Saudi Arabia.
Information and Computer Science department
Key accomplishments
+ Establishment of the Artificial Intelligence and Machine Learning undergraduate concentration
+ Establishment of the Master of Artificial Intelligence program
+ Establishment of the Cybersecurity and Blockchains undergraduate concentration
+ Establishment of the Master of Cybersecurity programm
+ Establishment of the annual "4IR Data Science Summer School" for Aramco employees since 2019
+ Establishment of the joint Aramco-KFUPM Cybersecurity Chair agreement
+ Establishment of the department female undergraduate and graduate programs
+ Major Revision for the Computer Science undergraduate program
+ Major Revision for the Software Engineering undergraduate program
+ Awarded the ABET re-accreditation for Computer Science undergraduate program
+ Awarded the ABET re-accreditation for Software Engineering undergraduate program
+ Awarded the National Cybersecurity Authority education alignment certificate for the department Cybersecurity masters programs
+ Managed Projects with a total budget exceeding 4 Millions SAR.
+ Recruiting world class new faculty members (8 Graduate Assistants, 8 Assistant Professors, 4 Associate Professors, and 2 Professors)

Summer Consultant

Summer 2018

Saudi Aramco, Dhahran, Saudi Arabia.
EXPEC Computer Center / Exploration Applications Services Dept / Applications Technology Division
Review current software development approach and methodology for software development for Exploration, and recommend improvements and best practices in quality, automation, integration and delivery.

Summer 2017

Saudi Aramco, Dhahran, Saudi Arabia.
Loss Prevention Department / Risk Assessment Group
SAP Environment, Health, Safety Management (EHSM) module upgrade for the Safety Recommendations System

Summer 2016

Saudi Aramco, Dhahran, Saudi Arabia.
EXPEC Computer Center/ Upstream Database Services Division
Predicting Electrical submersible pumps (ESP) failure using machine learning techniques

Full-Time Researcher

Jan 2010 — Dec 2015

University of Ottawa, Canada.
Complexity Reduction in Software Engineering (CRuiSE) group
Member of the CRuiSE research group under the supervision of Prof. Timothy Lethbridge. Conducted research on textual modeling languages and contributed to the development on the Umple language adopting these key practises:
+ Model-Driven Development (MDD)
+ Test-Driven Development (TDD)
+ Agile Development
+ Open source using svn/git

Lecturer

July 2009 — Dec 2015

King Fahd University of Petroleum and Minerals, Saudi Arabia.
Information and Computer Science department
Prepared and given Lectures to undergraduate students on programming principles using Java.
+ ICS 102 Introduction to Computing I

Teaching Assistant

Sept 2012 – Dec 2014	**University of Ottawa**, Canada. *School of Electrical Engineering and Computer Science* Prepared and Supervised laboratories. Marked quizzes and assignments. Provided feedback on students projects. Proctored exams. + ITI1120 Introduction to Computing I - Fall 2012 / Fall 2013 + ITI1121 Introduction to Computing II - Winter 2013 / Summer 2014 + SEG2105 Introduction to Software Engineering - Fall 2014 + SEG2106 Software Construction - Winter 2013 / Summer 2014

Graduate Assistant

Nov 2006 – June 2009	**King Fahd University of Petroleum and Minerals**, Saudi Arabia. *Information and Computer Science department* Prepared and Supervised laboratories. Marked quizzes and assignments. Provided feedback on students projects. Proctored exams. + ICS 102 Introduction to Computing I + ICS 103 Computer Programming in C

Summer Intern

Summer 2005	**Saudi Aramco**, Dhahran, Saudi Arabia. *Integrated Solution Service Department (ISSD)* Developed and enhanced an image processing program in the ISSD.

Patent

[P1] A. A. Alazba, **Hamoud Ibrahim Aljamaan**, M. R. Alshayeb. "System and method for code smell detection using transformer-based code representations with self-supervision by predicting reserved words." U.S. Patent US 12,591,499 B2; filed 31 January 2024; granted 31 March 2026. Assignee: King Fahd University of Petroleum and Minerals. [patent]

Research Funding

2024 - 2025 | **King Fahd University of Petroleum and Minerals (KFUPM)**
Internal Research Project **Status:** Completed
Title: Leveraging Transfer Learning for Code Smell Detection Across Different Programming Languages
Role: Principal Investigator (PI) **Project number:** INFE2410
Duration: 1 year (extended) **Budget:** SAR 46,000

2020 - 2024 | **Saudi Aramco**
External Project
Title: Researching Upstream Challenges through 4IR Summer School
Role: Cost Center Manager, Co-I **Project number:** ICS-2506
Duration: 4 years **Budget:** Approx. SAR 2.5M

2019 | **Saudi Aramco**
External Project
Title: Studying the feasibility of establishing 4IR Summer School
Role: Cost Center Manager, Co-I **Project number:** ICS-2468
Duration: 1 year **Budget:** Approx. SAR 560,000

2018 | **King Fahd University of Petroleum and Minerals (KFUPM)**
START UP RESEARCH GRANT
Title: Software Maintainability Prediction using Hybrid Data Mining Prediction Models.
Role: PI **Project number:** SR 171014
Duration: 11 months **Budget:** SAR 60,500

2008 | **King Abdulaziz City for Science and Technology (KACST)**
MASTER THESIS FUNDING
Title: Software Quality Assessment using Ensemble Models.
Role: PI **Project number:** GSP-17-132
Duration: 1 year **Budget:** SAR 50,000

THESIS SUPERVISION

- **[Ongoing]** Dalal Aldowaihi, PhD in Computer Science.
- **[Ongoing]** Aishah Altamimi, PhD in Computer Science.
- **[Ongoing]** Yasmin Yasin, PhD in Computer Science.
- **[Ongoing]** Raghad Alzahrani, Msc in Computer Science.
- **[Ongoing]** Norah Alsunaidi, Msc in Computer Science.
- **[Completed]** Shikah Alsunaidi, PhD in Computer Science, Dec 2025.
  - Thesis title: "Lifecycle-Aware and Drift-Resilient Machine Learning for Smart Contract Vulnerability Detection".
- **[Completed]** Rana Sandouka, Msc in Computer Science, Nov 2025.
  - Thesis title: "Transfer Learning Approaches for Cross-Language Code Smell Detection".
- **[Completed]** Rana Baamer, Msc in Computer Science, Sept 2025.
  - Thesis title: "Enhanced Saudi Stock Prices Forecasting with Technical Indicators and Deep Learning Ensembles".
- **[Completed]** Amal Alazba, PhD in Computer Science, Dec 2023.
  - Thesis title: "A Framework for Software Code and Model Smell Detection through Self Supervised Learning".
- **[Completed]** Amani Alqarni, Msc in Computer Science, Dec 2023.
  - Thesis title: "Leveraging Ensemble Learning with Generative Adversarial Networks in Imbalanced Software Defects Prediction".
- **[Completed]** Lama Albakhat, Msc in Computer Science, May 2022.
  - Thesis title: "Robustness And Stability Analyses Of Ensemble Learning Models In Android Malware Detection".
- **[Completed]** Nouf Alturayeif, Msc in Computer Science, Dec 2021.
  - Thesis title: "Aspect-Based Sentiment Analysis of Apps Reviews Using Supervised Machine Learning".
- **[Completed]** Kazi Ekramul Hoque, Msc in Computer Science, Dec 2021.
  - Thesis title: "Hyperparameter Tuning Impact on Machine Learning Forecasting Performance within the Saudi Stock Market".
- **[Completed]** Ahmed Alshaaby, Msc in Software Engineering, Dec 2019.
  - Thesis title: "Software Bad Smells Prediction Using Advanced Machine Learning Techniques".

Projects

Completed | **Umple: a model oriented programming language**
CRuiSE, University of Ottawa, Canada
Open-source language that integrates UML with Java and PHP, supports standalone modeling and embedded code, and generates code from class and state diagrams.

Completed | **MOTL: a model oriented tracing language**
CRuiSE, University of Ottawa, Canada
Model-level tracing language integrated with Umple for UML associations, attributes, and state machines, with constraints to control tracing scope.

2008 | **School Information System**
Research Institute, KFUPM, Saudi Arabia
Requested by *Ministry of Education, Saudi Arabia*
Team member: developed the software requirements specification (SRS) for online school management and teacher affairs systems.

Awards and Honors

- Recipient of the **Research Excellence Award for Journal Publications**, awarded by the Interdisciplinary Research Center for Finance and Digital Economy (IRC-FDE), King Fahd University of Petroleum and Minerals (KFUPM), 2025.
- Recipient of the **Distinction Award for Excellence in Academic Advising**, King Fahd University of Petroleum and Minerals (KFUPM), 2025.
- Supervised the team awarded the **Best Software Engineering Senior Design Project Award** for the project "Qulab" at the Senior Design Project (SDP) Expo, King Fahd University of Petroleum and Minerals (KFUPM), 2023. *Role: Supervisor*
- Led the KFUPM delegation that achieved **Second Place among 51 teams** at the Gulf Programming Competition, Muscat, Oman, 2022. *Role: Delegation Head*
- Received the **National Cybersecurity Authority (NCA) Education Alignment Certificate** for the Cybersecurity Master's programs at KFUPM, 2022. *Role: Chairman*
- Successfully led the **ABET re-accreditation** process for the Bachelor of Science program in Computer Science, KFUPM, 2021. *Role: Chairman*
- Successfully led the **ABET re-accreditation** process for the Bachelor of Science program in Software Engineering, KFUPM, 2021. *Role: Chairman*
- Recipient of the **University Service Award** in recognition of ten years of service at King Fahd University of Petroleum and Minerals (KFUPM), 2016.
- Awarded multiple **University of Ottawa Travel Grants** to support research collaboration and conference participation, including: École Polytechnique de Montréal, Canada (2010–2012); CSER Conference, Victoria, Canada (2012); MODELSWARD Conference, Lisbon, Portugal (2014).
- Recipient of multiple **Saudi Arabian Cultural Bureau (SACB) Excellence Awards**: Fall 2012, Winter 2014, Winter 2015, and Fall 2015.
- Awarded a fully funded **PhD Scholarship** by the Ministry of Higher Education, Saudi Arabia, 2010.
- Recipient of the **Saudi Telecom Company (STC) Distinguished Graduate Award** for ranking among the top ten graduating students at King Fahd University of Petroleum and Minerals (KFUPM), 2008.
- Recipient of the **Outstanding Graduate Academic Performance Award**, King Fahd University of Petroleum and Minerals (KFUPM), 2008.
- Graduated with **Second Class Honors** from King Saud University, 2006.

Professional Service and Leadership

- **Organizing Co-chair and Proceedings Chair** — International Workshop on Security Assurance for AI-Assisted Software Engineering (ASSURE-AI 2027), co-located with SANER 2027, Richmond, Virginia, USA, 9 March 2027 (upcoming).
- **Program Committee Member** — IEEE International Conference on Computational Intelligence and Communication Networks (CICN), 2025–2027 (17th–19th editions; 2027 upcoming).
- **Judge** — Mawhiba, Riyadh, Saudi Arabia, 2019–present. Member of the judging committee for the National Olympiad for Scientific Creativity "Ibda'a". Area of specialization: Software and Robotics.
- **Panel Moderator** — "Shaping the Future: AI Role in Transforming Digital Economies," Saudi Conference on Information Systems (SaudiCIS 2024), King Fahd University of Petroleum and Minerals (KFUPM), Dhahran, Saudi Arabia, November 2024.
- **Local Organizer and Student Volunteer** — ACM/IEEE 18th International Conference on Model Driven Engineering Languages and Systems (MODELS 2015).
- **Member** — Saudi Club in Ottawa, Canada (2010–2013). Contributed to organizing cultural, social, and sports activities, including community soccer tournaments.
- **President** — Saudi Students Association, University of Ottawa, Canada, 2012.

Skills

Programming:	Python, Java, C/C++
Machine & deep learning:	scikit-learn, PyTorch, TensorFlow/Keras
Data analysis:	pandas, NumPy, R, MATLAB
Software engineering:	UML, Umple, JUnit, ANTLR, Xtend; model-driven development, test-driven development
Databases:	MySQL, Oracle
Version control:	Git
Research tools:	Jupyter Notebook, Google Colab, Eclipse IDE, LaTeX

Languages

Arabic:	Mothertongue
English:	Fluent
